

CASE STUDY

Client

Integrated Device Technology is a global S&P 1000-class digital media products manufacturer

- Employees: Approximately 2,400
- Operations: Over 1,300 products in 15,000 configurations, with sales in 50+ countries

Solution

- Collaborative Demand Planner
- Multi-Echelon Inventory Optimization
- Supply Chain and Plant Planner
- S&OP with Collaborative Operational Planner
- Available-to-Promise/Order Fulfillment Solution

Value Proposition

- Overwhelmingly complex global supply chain
- Enabling end-users to collaborate securely
- Forecasts considering priorities of customers/suppliers
- Flexible planning considering all constraints
- Replace current i2[®] systems and build real-time integration to ERP/ home grown systems

Benefits

For almost a decade Adexa S&OP solutions have been successfully providing IDT with accurate plans and commitment to their customers resulting in higher customer service and lower operation costs.
