

# Case Study **MITAC**

## Client

**Multi Billion\$ electronics OEM and contract manufacturer** for personal computers, enterprise servers, peripherals, LCD monitors, motherboards in Taiwan

## Solution

**Adexa S&OP and S&OE**

- Supply and demand planning, configure to order planning
- Equipment utilization optimization

## Challenges

Reduce inventory; optimize capacity utilization; global materials visibility and placement; optimize capacity utilization; enhance customer responsiveness

## Benefits

- 300% + reduction in planning cycle time (from days to hours)
- Global view and synchronization of operations in real time
- Notable improvement in customer responsiveness
